

Everyone deserves to breathe safely
Resilience 2026 brings science, policy, and solutions together.

IN CASE OF A ZOOM CRASH DURING THE CONFERENCE

2026 RESILIENCE
Conférence internationale sur la SCM
International Conference on MCS

Day 1: Advancing the Science behind MCS
Day 2: Indoor Air Quality, Inclusion, Policy, and Global Movement

This two-day international event is dedicated to advancing scientific understanding, strengthening recognition of Multiple Chemical Sensitivity (MCS) as a disability, and accelerating meaningful inclusion across healthcare systems, workplaces, public spaces, and policy frameworks.

IN CASE OF A ZOOM CRASH DURING THE CONFERENCE

Dear Attendees,

Thank you for being part of **RESILIENCE 2026**. Your participation is of immense importance to us. We are committed to delivering a seamless and engaging virtual experience; however, as with any online event, occasional technical disruptions may occur. If you experience any interruptions during the conference, please follow the guidance below:

★ Stay calm and allow time for resolution

- Our technical team will actively monitor the session and work to resolve any issues as quickly as possible.
- Kindly email resilience2026@aseq-ehaq.ca with any inquiries, and our team will get back to you as soon as possible.

★ In case of a Zoom disruption

- If there is a broader Zoom outage (which can often be confirmed online), we recommend attempting to rejoin the session approximately every 10–15 minutes.
- If the issue is related to our system (such as a power or connectivity interruption), the session may pause temporarily. In this case, please remain in the webinar if possible, as we will restore the session as soon as we are able.

★ Be prepared

- Keep your Zoom access link easily accessible throughout the event.
- Ensure your device is charged and your internet connection is stable, where possible.

★ Access to missed content

- If any portion of the conference is missed due to technical issues, all registered attendees will receive access to session recordings and any relevant materials following the event.

We appreciate your patience, flexibility, and understanding. Your participation is what makes this conference meaningful, and we thank you for your continued engagement as we come together for this important dialogue.

Warm regards,

THE RESILIENCE 2026 CONFERENCE TEAM
